

## Navaratri 2024

Annually we are reminded at the school to make a concerted effort to intently and unconditionally gather together as spiritual aspirants, family and friends for 9 nights of fire ceremony (havan). On the 10<sup>th</sup> night we thankfully celebrated our achievement in so doing.

Why you may ask? To answer, in so doing is to experience and express the motherly divine nature in us all and make manifest light which is truth and love, to overcome and conquer the forces of evil within us. This is so conducive especially in the times we are living in. We not only thought of ourselves and our needs, but included the world and mankind in its entirety!!!

On this occasion we all mustered up tremendous staying power in striving everyday to experience and express afresh the divine Mother Nature in us all.

To conclude we all felt, that this year the best results were experienced and achieved!!
